MY FRIEND--A WORD WITH YOU.

Do you know that every man who desires to vote at this election must register ANEW? Even if you have REGISTERED and voted before, you must register again under the new Election Law to vote this year.

Do you want the Republicans to carry the election and have your neighbors arrested and put in jail as in 1868 9? If not, REGISTER and VOTE THE DEMOCRATIC

Do you wish the negro to get control of your county and State? If not, REG-ISTER and VOTE for the DEMOCRATIC NOMINEES.

Do you not know that EVERY NEGRO in the State will REGISTER and VOTE? Then so must every WHITE MAN. Do you want negro Yankee soldiers

with drawn bayonets to meet you at the polls and dictate to you how to vote? If not, be sure your name is on the the registration books, and do not fail to vote the straight Democratic ticket.

You can't register after Oct. 24TH- so REGISTER AT ONCE. Don't say you have not time-take time-Your HAP-PINESS depends on it; the GOOD NAME AND PROSPERITY OF YOUR STATE DEPENDS ON IT; HONEST GOVERNMENT AND WHITE MAN'S CONTROL DEPENDS ON IT. DON'T WAIT. Delay may cost the defeat of the party.

All Democratic papers will please and keep at the top of the column of each issue until after the election.

ED. CHAMBERS SMITH. Chm'n. Dem. State Ex. Com.

A PROMINENT and able Presiding Elder of the Methodist church in renewing his subscription says:

"The paper is so bright, newsy and crops need. THOROUGHLY WHITE in its politics, my wite will hardly let me read it first. object only to having to "wait my turn" to read it."

THERE can be no division among white men in North Carolina so long as we are aside their prejudices and divide their | kept on the farm in Summer. votes, then the white men might afford to differ. But they cannot afford to di- and what ought to be done in experivide in North Carolina under present men'al farming." We are living in a Convention of Democratic Clubs.

SECOND DISTRICT.

Resolutions Adopted by the Democratic Executive Committee.

(Special Cor. of STATE CHRONICLE.) WILSON, N. C., Oct. 14. -At a meeting of the Democratic Executive Committee of the Second Congressional District, held in Wilson on Tuesday last, the following resolutions were adopted.

be accepted with regret that his health menters in fruits, grasses, &c. -all these

Democrat and so patriotic a citizen. able to make a nomination to fill the vacancy for the reason that the time be-

INDUSTRIAL EDUCATION.

held in the hall of the House of Representatives Wednesday night which was set apart for the discussion of the interesting subject of Industrial Education. The attendance showed the growing interest in the practical manual training of the boys.

Agricultural Society, stated that the night was the time for the regular busi- section often are worthless in others. In ness meeting of the society, but that the time was very willingly given up for a general discussion of experimental farm-JOSEPHUS DANIELS, - - Editor. ing by the meeting, and that the regular business meeting for election of officers, MR. W. J. PEELE then introduced

PRESIDENT A. Q. HOLLADAY, of the A. and M. College, as President of the meeting, who made the opening address. He advocated the education of the innot only difficult to make a profit out of agricultural pursuits, but that it was extremely hard to make a comfortable living from it under the old methods. The day of drudgery had passed. Mind and rich our lands. intelligence must guide and rule now, in order that systems of agriculture might be conducted in a way that would meet | quality. the exigencies and conquer the obstacles of the present time.

He said that our present system of labor was inadequate to properly hold and develop the fair tenantry which we now occupied, and hence these systems must be improved, and they must be improved by education and training. Our industry must be educated to deal with new and difficult problems. There noblest calling on the earth. City peowill soon be no room for jack leg build- ple are honest and do not look down ers and engineers. There will soon be upon the farmer-they want him eduno room for the farmer who cannot cated that they may rank high in sociebring to his assistance intelligent methods. They must be starved out in the fierce struggle for existence.

MR. HOLLADAY advocated a system of who work all the time succeed. The Taexperimentation with all the farm proriff and other things oppress us, but ducts of the State with a view to gaining all pess ble knowledge of the nature and growth of such products. Col. HOLLADAY's address was a gem of the first water. His points were forcibly to a dog law: and beautifully elaborated and made

strong impressions. PROF. J. H. KINNEALY, of the A. & M. College, discussed that part of Industrial Education known as Mechanic Arts. He said: The old idea was that the uneducated and those not susceptible of education ought to do manual labor and that the men that come from Colleges should enter the professions. There are now two prevalent opinions The first advocates Trade Schools in trade after he has finished his general education. There are but four of these schools in this country. The second advocates Manual Training Schools, in which the student is taught to use his Forced Down a Little Boy's Throat hands and at the same time his mind is trained. In Manual Training Schools the student is taught no particular trade, but is taught the fundamental principles of high schools of the country. Following this school is the Agricultural and Mechanical college.

schools to have a perfect system of me-

GEN. W. R. Cox spoke on scientific farming: This is an age of progress in all branches of human industry. When a country sees starvation staring it in the face, it has always found relief in

Agriculture is the highest and most important study that can be pursued. Most of our great men have come from essary that we should educate farmers' sons. Farming is the surest business in the world. There are fewer failures among farmers than any other class. The most of the complaining from farmers is from those that have not succeeded, and they have not succeeded because they have not properly managed their business.

Success depends on system. The farmer must take care of his horses, tools &c. He must have a place for things and keep them there. The most successful farming that has been done in this country has been done by merchants and professional men, because they have, as a rale, more intelligence and system than the men who constitute the farming mass. You cannot succeed without intellect any more than a railroad can without brains behind We must use machinery and we must know how to use it. Just

see what we have done without intelligence, what could we do with it? We have a monopoly of the greatest staple on earth - cotton. We of the South add 450 millions of dollars to the nations wealth every year from this crop alone.

In regard to manures he said: Manure everything you plant. You must know how to use it. Assist nature by intelligently using the ingredients that the

In reference to the A. & M. College he said that some claimed the standard of admission too high. He did not think so. He thought it ought to be high enough to encourage our boys to strive to attain to higher advancement in our common schools. He suggested that the term of the A. & M. College ought surrounded by a solid wall of negro vo- to be changed so that the vacation ters. If the negroes would only lay should be in the winter and the boys

DR. H. B. BATTLE on "What has been conditions. - E. C. Beddingfield in State fast age. Every act, every science, every industry has made wonderful advancement within the last twenty years. In nothing is this more noticeble than in the science of agriculture. There are not enough men following the leaders in scientific farming. The trial of any new method is an experiment. We ought to admire the men who have heroism enough to break off from old methods and venture into new and untried methods. We have pioneers in this line that

deserve our admiration. We have men on every hand who have RESOLVED 1. That the resignation of ventured to investigate new things and Capt. W. J. Rodgers as the Democratic new methods. Fine horses, improved candidate for Congress in this district breeds of cattle, hogs and sheep; experideprives us of the service of so true a and more have added to the interest of the new way of doing things. He here RESOLVED 2, That we deem it inadvis- spoke of the work of the State Experiment Station and gave an outline of the work done there and at the sub-stations tween now and election is insufficient in scattered over the State. This work is which to make a thorough canvass of to be extended, and to do this the stathe district, which is a very large one. I tion must have the hearty co-operation

of the farmers. Each County Alliance in the State has been requested to ap-That was a very interesting meeting point a committee to thus aid the station. The results of this work will be published and distributed over the

PROF MASSEY, of the A. and M. College, said on Experimental Horticulture: The idea in experimental work is to learn something. About all we know in fruit growing we learned by experimenting with native fruits. Whatever we do we PRESIDENT W. G. UPCHURCH of the must do it with an eye single to localities, for the fruits that do well in one this State of such varied climate it is necessary to have experimental stations from the mountains to the sea. We must enlist the interest and sympathy of our best thinking men. One of the coming crops is late Irish potatoes. He believes this will be a valuable crop in the south in the near future.

PROF. EMORY, of the A. M. & M. College: The farmers of the State are now emerging from an extensive into an industrial and agricultural element to meet | tensive system of farming. We must enthe nece-sities of the times. He remark- rich our lands and plant fewer ed the fact that in the present day it was acres. We can do this by introducing good cattle and sheep of those kinds that thrive best here. Our State can be placed in the front rank in successful stock raising and at the same time en-

We can and ought to produce milk and butter, and beef and mutton of the best

MR. H. E. NORRIS: This commanding characteristic is seen everywhere. There is less narrowness among the masses than heretofore. Agriculture is in a depressed condition, and it is largely for a lack of sufficient information, energy, and of economy. He encouraged the tarmer boys, and told them to hold up their heads because they had chosen the ty. The farmer must understand every detail of his work. He must know something. He must work continually. Men

lack of industrious energy is oppressing The following is the committee to memorialize the Legislature in reference

DR. D. W. C. BENBOW, Chairman. L. B. HOLT.

COL. W. F. GREEN. R. P. RHEINHARDT.

R. B. CALDWELL.

The following resolution was adopted: RESOLVED, That it is the sense of this meeting that an Association of Experimental Farmers be organized in North Carolina, and that a committee of twelve with PRESIDENT A. Q. HOLLADAY, as in reference to Mechanical training. Chairman, be appointed to devise a plan of organization with powers to admit which the student is taught a particular | members to such Association upon such qualification as may be determined.
